

# **STORES-TO-SHORES**

## **PHASE II - HALL STREET PROJECT**

### **UPDATE #9**

**November 24, 2017**

#### **Phase II Hall Street Stores to Shores Project**

Progress was made by the Contractor over the last week on the Hall Street project. The Contractor was able to make progress with the instillation of storm water piping and the removal/disposal of a buried pier structure.

During the week of November 27<sup>th</sup> to December 1<sup>st</sup> the contractor will continue to install the 900 mm storm water piping in the parking lot area and will also work on a sanitary sewer connection for a future washroom structure that will be located adjacent to the gazebo. No road closures are expected during this period but the west side of the parking area will remain closed.

Access for vehicles and pedestrians will be maintained to the boat houses throughout the next week of construction. The access remains from the north side of the gazebo. Please proceed slowly through this area and use caution.

City crews will also be doing working in the area starting Monday. City crews will be performing video inspections of the existing storm and sanitary sewers. The work being done by City crews will precisely locate where existing piping materials change and will also identify where deflections in the existing infrastructure are located. City crews will mark these key locations on the pavement with paint, and this work will aid the Contractor in planning the Hall Street/Lakeside Drive intersection work that is still a number of weeks away. Further updates will be provided as the planning and scheduling of the intersection work is finalized. Please proceed slowly and use caution when driving past City crews.

The City remains committed in keeping traffic moving and ensuring access to businesses along Hall Street and Lakeside Drive. No detours or traffic disruptions are anticipated for the coming week. The City requests that the public Remain patient during the construction and to continue to support the businesses along Hall Street and Lakeside Drive.

**Ongoing project updates will be available on the City's webpage and via Facebook as the project proceeds.**
