IN CONSIDERATION OF THE GRANTING OF THE PERMIT, I/We agree to release and indemnify the City of Nelson, its council members, officers, employees, and agents from and against all liability, demands, claims, causes of action, suits, judgments, losses, damages, costs and other expenses of whatever kind which I/We or any other person, partnership or corporation or our respective heirs, successors, administrators or assignees may have or incur in consequence of or incidental to the granting of this permit or any representation, advice, inspection, failure to inspect, certification, approval or failure to enforce the City of Nelson Building Bylaw or the British Columbia Building Code and I/We agree that the City of Nelson owes me/us no duty of care in respect of these matters. I have read the above agreement, release and indemnity and understand it:

Applicant is the: Owner Plumber Signature: _____ Date: _____

FREEDOM OF INFORMATION AND PROTECTION OF PRIVACY ACT

The City of Nelson is collecting your personal information in accordance with Section 26 of the Freedom of Information and Protection of Privacy Act. The City of Nelson collects your information for the purposes of administering City of Nelson programs and services, including permits and licensing services. If you have any questions, please contact the Privacy Head at 310 Ward Street, Nelson, BC V1L 5S4 or FOI@nelson.ca or 250-352-8234.

PLUMBING PERMITS

A permit must be obtained from the City of Nelson prior to any plumbing installation.

HAZARDOUS MATERIAL SURVEY

If installing plumbing in a house built in 1990 or earlier, you may be required to submit a Hazardous Material Survey following the guidelines for OHS Regulations 20.112. For more information contact WorkSafeBC at (250) 354-5700 or www.worksafebc.com

WATER OFF/ON

Public Works must be contacted when connecting to the City of Nelson Water, Sewer or Storm systems, and for Water on/off requests: 250-352-8238.

REQUIRED INSPECTIONS

- 1. Before covering below grade rough-in water, sanitary sewer and storm sewer site services.
- 2. Before covering under slab rough-in water and sewer.
- 3. When rough in water and sanitary sewer is installed, but not covered.
- 4. Final inspection after fixtures have been installed.

NOTE: Sanitary and storm sewer services require exfiltration tests and water services require a pressure test.

REQUIREMENTS

Part 7 of the B.C. Building Code requires that all plumbing be installed by a B.C. Certified Plumber, except that the registered owner and occupier of a single family residence may install plumbing services in his own residence. A home owner permit requires a schematic drawing (use grid below) showing the location of drain, waste, vent and water service piping with sizes and fixture locations.

PLUMBING LAYOUT SCHEMATIC FOR: _____
