

JULY 19, 2021

NOTICE TO RESIDENTS **HARROP / PROCTER AREA**

Nelson Hydro is advising the residents of Harrop / Procter of upcoming work for the *Power & Communications Utility Pole Replacement Project*.

Dates:

July 19, 2021 until October 31, 2021 (approximately)

Work will entail:

replacement of approximately 95-100 power utility poles
multiple contractors (and Telus and Shaw Cable) involved at various timelines
excavations, crews erecting poles, pulling wires, old pole removals, site remediation

How can residents help:

To keep crews and the public safe, we ask for everyone's cooperation, patience, and respect for the powerline crews, traffic safety personnel and their equipment

Power outages

to keep the power line workers safe, temporary power service disruptions may be necessary
crews will make every attempt to provide sufficient notice for power disruptions.

Vehicle and pedestrian travel disruptions

Temporary vehicular and/or pedestrian travel disruptions as crews and equipment perform the various tasks associated with working on or near the energized power lines and communications utility poles.
